

cover paper

Xmas Trees

Difficulty - Easy. Small adult assistants required.

INSTRUCTIONS

1. With your green Cover Paper at landscape position, use your scissors and cut a line from the middle bottom to the centre of the paper.
2. Fold the green Cover Paper in on itself so it makes a cone shape.
3. Stick the Cover Paper together in its cone shape using either sticky tape or staples. This will form the basis of the tree.
4. Choose a piece of coloured Cover Paper for your star and using the star template or a freehand drawing make a star shaped stencil on your star coloured Cover Paper.
5. Cut out your star shape.
6. Glue your star to the top of your tree.

You can also stick more colours and shapes on your tree for an even greater effect.

SUPPLIES
