

Craft Project

Difficulty: **Intermediate**

Note: Some adult assistance required

spectrumboard | Christmas Tree

INSTRUCTIONS

1. Print the Christmas Tree template on spectrum board to ensure a sturdy model. Have scissors or a scalpel ready for cutting. If you're using a scalpel, ask for help from an adult to ensure safety.
2. Cut Out the Pieces: Carefully cut out all the parts from the template, ensuring clean edges for better assembly. Cut along the dotted lines.
3. Assemble the Christmas Tree: Attach the two body pieces together to make the structure. Attach the star on top of tree. Your 3D Christmas Tree is ready! Adjust the parts to ensure symmetry, and display it proudly or use it for creative projects.

PRODUCT:

- SPBA4 Assorted

TOOLS

Scissors or a Scalpel
Printed template
