INSTRUCTIONS

1. Glue Doyley to card - if using a glue stick, remember to dab rather than stroke. The more glue you get on the front, the more chance of dirty marks.
2. When dry, decide where you want to cut the card, and mark the lines on the wrong side of the card
3. Using a stanley knife and ruler (or scissors) and trim away the excess card.
4. Fold card in half and press along fold so it stays in place. All done!
