

# Craft Project

Difficulty: **Intermediate**

**Note:** Some adult assistance required

## tissuepaper | Flowers

2

4

### TOOLS

Scissors  
Wire/string

### PRODUCT:

- Rainbow Product: Any Range of Assorted Tissue Reams.

### CRAFT TEMPLATE:

None required.

## INSTRUCTIONS

1. Grab 6-8 tissue sheets in any colour combination you like.
2. Place each sheet on top of each other and with an accordion fold (front to back folds like an accordion instrument), fold each tissue piece over each other, until you have all the tissue sheets folded on top of each other (see below image).
3. Once your folds are finished, in the middle of the tissue tie with either string or florist wire. Using your scissors cut the ends of the tissue in to your petal shape.
4. Hold your tissue sheet in one hand and with the other pull one piece of tissue at a time towards the middle. Continue this process until you are finished (see below images).
