

kindershapes | Frog

TOOLS

Scissors
Glue
Rainbow Paper or Board to stick Frog on.

PRODUCT:

- FI 27120 - Gloss Kinder Squares 127mm 100 Sheets

CRAFT TEMPLATE:

Not Required

INSTRUCTIONS

1. Glue a red and green gloss square together so the colours face away from each other. Fold the green over the red corner to corner to make a triangle shape. This will create your Frog head and mouth.
2. Paste a green gloss square on your page. Then paste the bottom of your Frog head over one corner of the green gloss square. You want to make sure the Frog body has a diamond shape.
3. Cut another green gloss square in to quarters, so you are left with 4 pyramid shapes. These will be used as the Frogs legs.
4. Paste the legs down over the Frogs body.
5. Then all you need to do is cut out some eyes and the tongue and stick them down.
