

Craft Project

Difficulty: **Beginner**

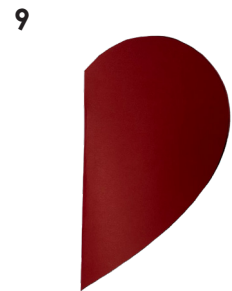

Note: Some adult assistance required

spectrumboard | Mother's Day Card

INSTRUCTIONS

1. Choose your Spectrum Board colours. Print the template and cut out all the shapes using scissors. Take care with smaller details.
2. Fold the large heart shape in half vertically to create the card base.
3. Fold the smaller heart shape in half, then glue it onto the centre of the larger heart.
4. Attach the stem and leaves to the bottom centre of the smaller heart.
5. Fold each tulip shape in half vertically, so the designs face inward.
6. Glue the folded tulip pieces together side-by-side to form a 3D flower.
7. Stick the tulip flower onto the top of the stem, right in the centre of the small heart.
8. Decorate your card with extra elements from the template, and write a heartfelt message inside.
9. Fold your card and gift it to Mum — a thoughtful surprise made with love.

PRODUCT:

- SPBA4PA Spectrum Board 220gsm A4 100 Sheets

TOOLS

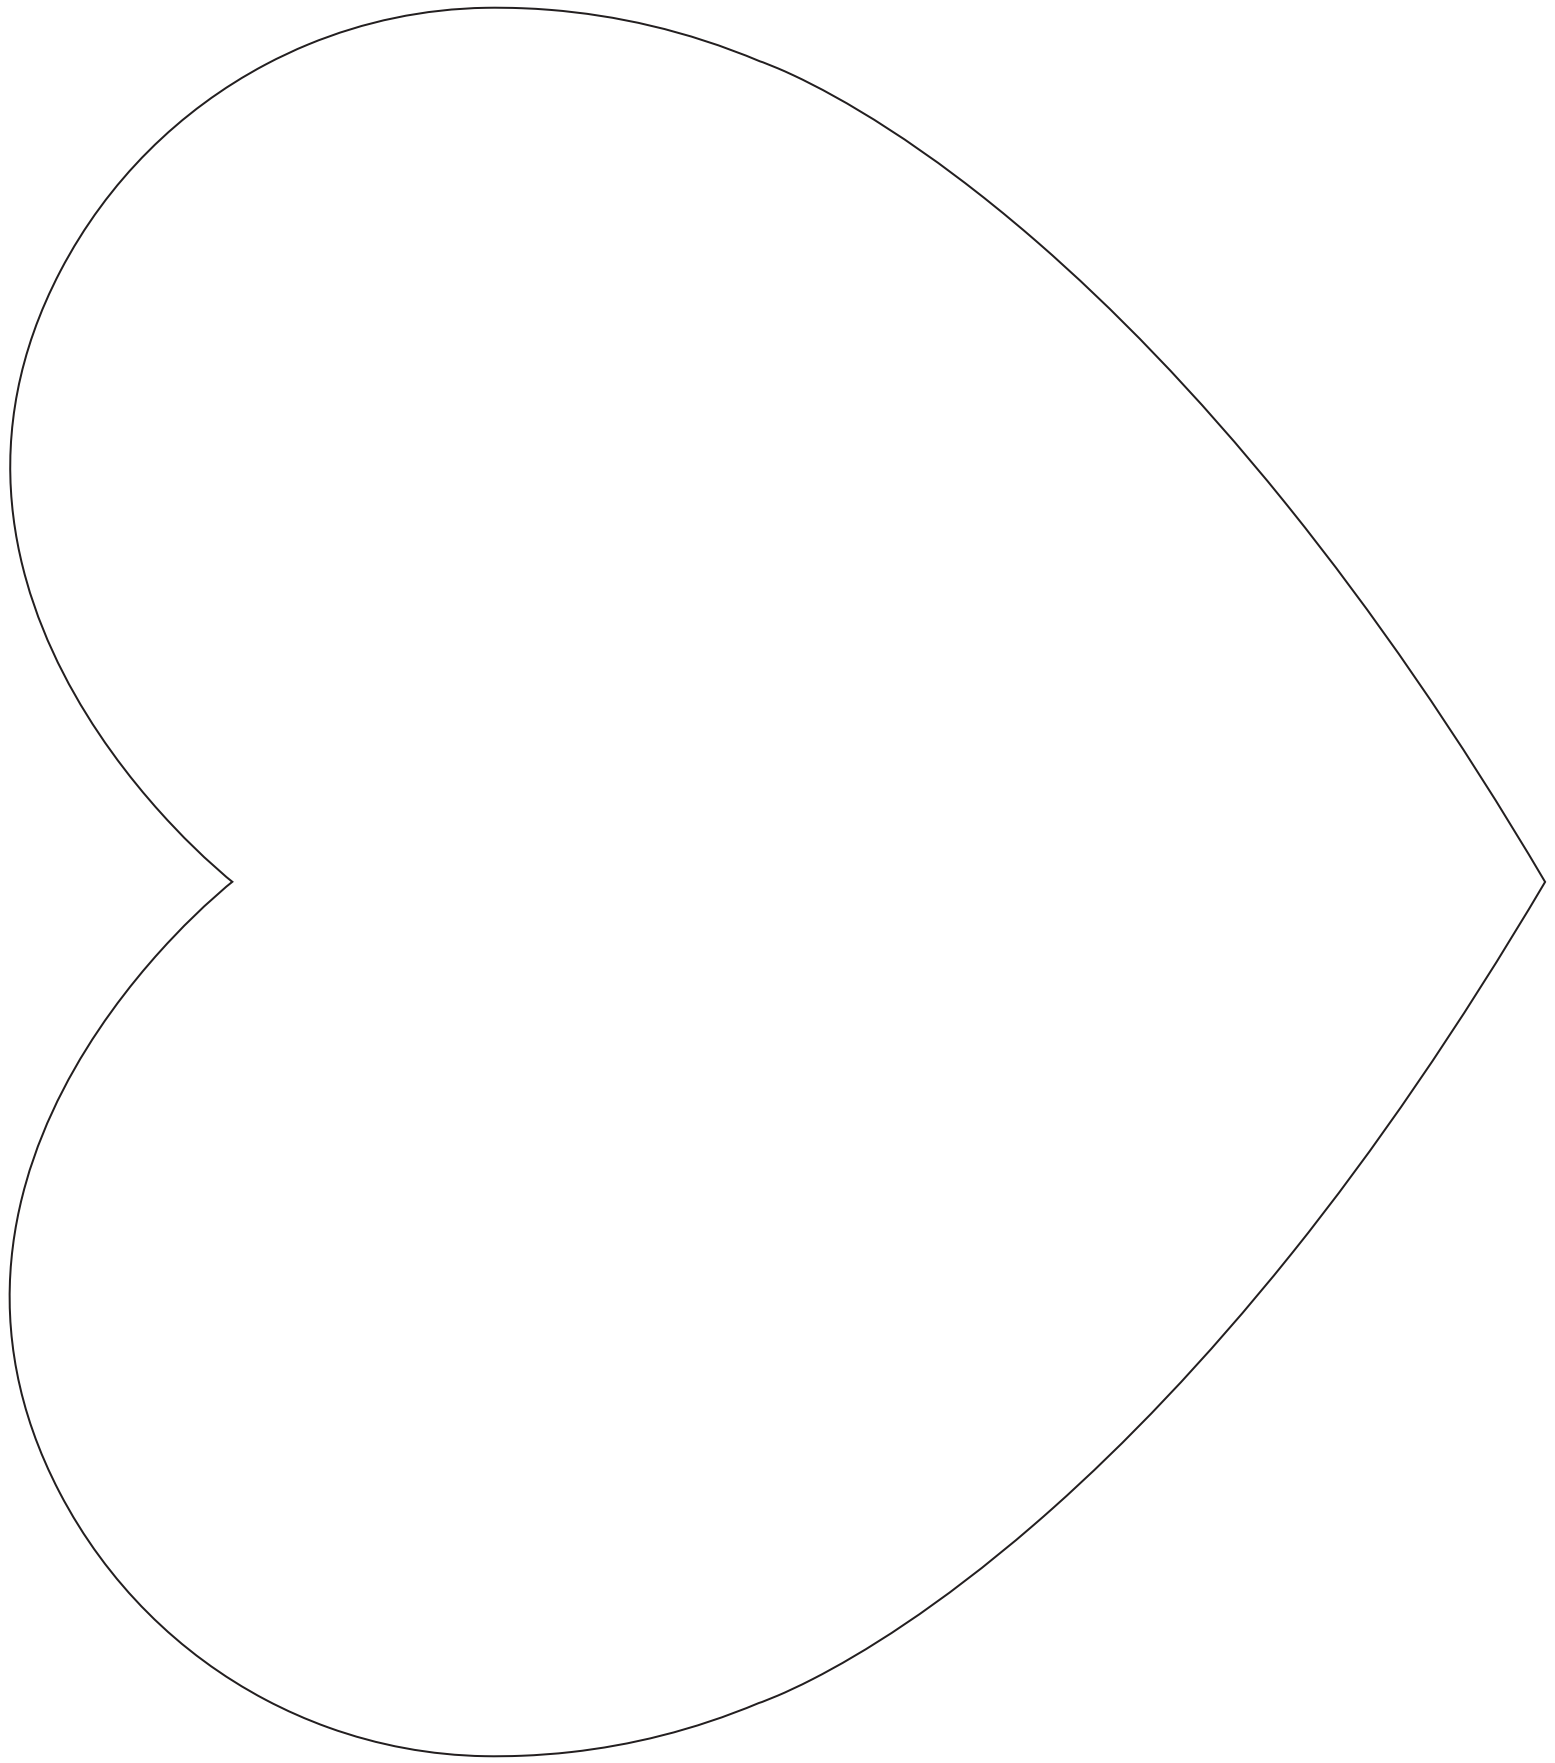

Scissors, glue or double-sided tape
