

Craft Project

Difficulty: **Intermediate**

Note: Some adult assistance required

spectrumboard | Reindeer

INSTRUCTIONS

1. Print the Reindeer template on spectrum board to ensure a sturdy model. Have scissors or a scalpel ready for cutting. If you're using a scalpel, ask for help from an adult to ensure safety.
2. Cut Out the Pieces: Carefully cut out all the parts from the template, ensuring clean edges for better assembly. Cut along the dotted lines.
3. Assemble the Reindeer: Attach the antlers, the legs to the body together to make the reindeer structure. Adjust them to ensure the reindeer stands upright and is well-balanced. Your 3D reindeer is ready! Display it proudly or use it for creative projects.

PRODUCT:

- SPBA4 Assorted

TOOLS

Scissors or a Scalpel
Printed template
