

## coverpaper | Stencil Cut

### TOOLS

Scalpel  
Scissors  
Glue

### PRODUCT:

- RCPA450015AS- A4 Assorted Colour Cover Paper

### CRAFT TEMPLATE:

Not Required

## INSTRUCTIONS

1. Choose the colours you are going to use for your design. Draw or print directly onto a sheet of Cover Paper your design. It's a good idea to have your design mirrored. That way you can paste drawing/print side face down and you won't see any drawing/print guides that you may not have been able to cut out correctly.
2. Use a scalpel and carefully cut your design.
3. Trim the edges of your top Cover Paper sheet. This will mean you have a border effect when you paste on top of your backing Cover Paper sheet.
4. Carefully paste down your top Cover Paper sheet to your backing sheet. As mentioned it's a good idea to paste your top Cover Paper sheet drawing/print side face down. That way any part of the drawing or print that is remaining won't be seen.

Once you get the hang of the two colour cut out, experiment with multiple colours and Cover Paper sheets. You will be able to get some really impressive looking pieces of art.
