

Craft Project

kindershapes - Owl

Difficulty - Medium. Some adult assistance required.

ACTIVITY

Creating a tissue owl

SUPPLIES

Tools:

Glue
Googly eyes
Acrylic paint

Product:

TS125 Tissue Squares
TC120 Tissue Circles

*You may also use other size shapes for a different sized owl.

Craft Template:

Not Required

INSTRUCTIONS

1. Before you start choose your colour scheme and grab a tissue circle for the body and a tissue square to use for the head (we recommend using the same colour for the body and the head).
2. Glue your tissue circle to your paper. Using your square piece of tissue cut out the shape for the top of the owls head and glue over your tissue circle.
3. Cut out your legs and beak and stick in to place.
4. Glue your googly eyes down. Or draw on with pen once tissue is dry.
5. Use acrylic (or another suitable) paint on your wings. Here we soaked our hands in the acrylic paint and stamped them down.
