

# Craft Project

Difficulty: **Intermediate**

**Note:** Some adult assistance required

## spectrumboard | Valentine's Pop-up Card

### INSTRUCTIONS

1. Choose your Spectrum Board colours. Print the template and carefully cut out all shapes.
2. Fold an A4 sheet of Spectrum Board in half to create the card base.
3. On the front of the card, glue the circle near the top and the carriage near the bottom.
4. Fold each heart shape in half. Glue the outer flaps of the hearts together to form the hot air balloon heart.
5. Glue the balloon heart in the centre of the circle. Add the clouds and place a small heart inside the carriage.
6. Open the card. On the inside, assemble and glue the gift box in the lower centre of the card.
7. Attach the balloon strings or sticks to the heart and glue them inside the gift box. Decorate the inside of the card with the remaining circle shapes.
8. Let the glue dry, write your message then give your card to your Valentine.
